

HORIZON Service Provider

The company's main activity focuses on providing high quality of advanced support services in the areas of Business Critical HW & SW.

HORIZON capitalizes on education and educated Customers who can be more demanding in quality and efficiency driving IT market in a higher degree of business importance. Technical training is provided to IT staff targeting Vendors HW & OS such as Cisco, Microsoft, SUN, Linux, Oracle & HP.

Sphinx has been awarded by Horizon to upgrade their office fire security system based on Cooper Safety solution and Intrusion system.

Sphinx was also selected to implement on Horizon's warehouse a fire detection system based on Kentec Sigma CP conventional fire panel and Apollo series 65 detectors and sounder. In parallel intrusion and environment systems were installed to fully secure the warehouse.

A banner with a background of intense orange and red flames. The text "Fire Protection" is written in a large, white, serif font across the bottom of the banner.
